SUBJECT: Release of Air Force Materials *[Redacted]*

25X1C

25X1X7

1. In recent months personnel in the Air Weather Service, Directorate of Climatology, under the direction of Major Joseph Gulinson, have been supplying M/AG with unclassified weather maps and other meteorological materials. These materials present those aspects of the weather situation, in the Sino-Soviet bloc, which are most relevant to agricultural production. As far as we know, M/AG is the primary consumer of these materials, although State Department and the Department of Agriculture are also receiving copies of some parts.

2. We would like permission to give copies of these unclassified meteorological materials, which Air Weather Service is furnishing us, to the section *[Redacted]* which has an interest in Soviet Bloc agricultural problems.

3. We have discussed this matter with the Air Weather Service personnel who have been supplying us with the materials. They see no objection to our proposal, but they have requested that we formally ask permission through channels.

4. Would you please attempt to obtain this permission from the Air Force?

5. The Air Force Directorate of Intelligence acceded to a somewhat similar request in 1956 (see *[Redacted]* 10 October 1956).
